To ensure accuracy, measurements should be taken by a Tuxedo Shop, a Men's Wear Store or a Seamstress. Below, please indicate where your measurements were taken (see "Measured By"). Measurements should only be done at home when you don't have access to a professional.

When being measured, you should be wearing well fitted clothing -- not too baggy or bulky. All measurements should be taken with your arms relaxed at your side. Please use Imperial Units (ie. inches, feet, pounds).
